## A LITTLE GIANT OF A CHARGER

## 65W GaN USB Charger with USB-C Cable 2M | 100W

The ADATA 65W GaN USB Charger delivers fast, efficient charging for laptops and high-power devices. Its compact, travel-friendly design features a folding plug for easy storage. With GaN technology, it ensures high performance in a lightweight form. Charge up to three devices simultaneously with built-in safety protections for reliable use anywhere.

### Efficient & Smart PD/QC 65W Fast Charging GaN Technology

Supports PD3.0 and QC4.0 fast charging standards at a maximum output of 65W to charge laptops and other high-power devices. Smart charge management utilizes advanced PPS (Programmable Power Supply) technology to automatically adjust wattage according to the charging device to meet diverse charging requirements.

GaN is a highly temperature resistant and chemically stable semiconductor that delivers high power output and high thermal conductivity. It makes charging devices faster and more efficient compared to traditional chargers.

\*Before charging, please confirm whether the charging cable and/or charging device support 65W fast charging.

## Ultra-compact and Portable

GaN chargers are small and light. The ADATA GaN charger measures only 53mm and fits in the palm of your hand, making it the perfect portable solution to running out of power.

## Folding Plug for Easy Storage

Equipped with a 90° folding plug, the charger stores readily without getting tangled with the charging cable. It is a must-have for business trips and vacations.

## Simultaneously Charge 3 Devices

Two Type-C ports support individual power output of up to 65W. One Type-A port supports individual power output of up to 60W and three devices can charge simultaneously at a maximum output of 60W.

## Multi-Circuit Protection

Multi-circuit protection ensures user safety in case of over-current, over-voltage, over-temperature and short-circuiting.
