USB

MODEL: 6USB

- Designed, packaged and tested in Orlando Florida, USA
- USB A to B cable designed for high speed USB 2.0 audio
- Precision twist techniques ensures accurate signal timing
- 26AWG 2.5% silver plated HC-OFC signal conductors
- 24AWG HC-OFC power conductors
- Shielding the signal conductors prevents noise in the signal
- Overall dual shielding protects from EMI/RFI interference
- Decorative woven jacket over flexible PVC black jacket
- Available in 1 and 2 meter lengths

HDMI®

MODEL: 1DH

- Designed, packaged and tested in Orlando Florida, USA
- Certified to support 3D, 4K and ARC
- Stranded 30AWG conductors
- High Speed HDMI up to 3 meters
- UL® CL2 jackets in all lengths
- Standard molded connector with strain relief

HDMI® with Ethernet

MODEL: 8HEC

- Designed, packaged and tested in Orlando Florida, USA
- Certified to Support Ethernet, 3D, 4K and ARC
- High Speed HDMI with Ethernet up to 6 meters
- Solid 26AWG 2.5% silver-plated LC-OFC conductors
- Woven jacket up to 3 meters, UL® CL2 jackets 4 & 6 meters
- Connector has *Full Body Armor™* over copper foil shielding
- 15 microns gold-plating on contacts
- Boss elements on HDMI connectors ensure tight fit

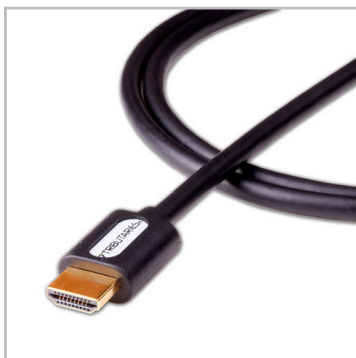

MODEL: 6HEC

- Designed, packaged and tested in Orlando Florida, USA
- Certified to Support Ethernet, 3D, 4K and ARC
- High Speed HDMI with Ethernet up to 5 meters
- Solid 28AWG 1.25% silver-plated HC-OFC conductors
- Woven jacket up to 3 meters, UL® CL2 jackets 4 & 5 meters
- Connector has *Full Body Armor™* over copper foil shielding
- 15 microns gold-plating on contacts
- Boss elements on HDMI connectors ensure tight fit

MODEL: 5HEC

- Designed, packaged and tested in Orlando Florida, USA
- Certified to Support Ethernet, 3D, 4K and ARC
- High Speed HDMI with Ethernet up to 5 meters
- Stranded 28AWG HC-OFC conductors
- UL® CL2 jackets in all lengths
- Connector has copper foil shielding
- 10 microns gold-plating on contacts
- Boss elements on HDMI connector ensures tight fit

MODEL: 3HEC

- Designed, packaged and tested in Orlando Florida, USA
- Certified to Support Ethernet, 3D, 4K and ARC
- High Speed HDMI with Ethernet up to 4 meters
- Stranded 30AWG OFC conductors
- UL® CL2 jackets in all lengths
- Connector has copper foil shielding
- 10 microns gold-plating on contacts
- Boss elements on HDMI connector ensures tight fit

Long Length HDMI® with Ethernet

MODEL: IHEC

- Designed, packaged and tested in Orlando Florida, USA
- Certified to Support Ethernet, 3D, 4K and ARC
- High Speed HDMI with Ethernet 8 & 10 meters
- Standard HDMI with Ethernet 12, 15 & 20 meters
- Solid 24AWG HC-OFC conductors
- UL® CL2 jackets for in wall use
- Connector has *Full Body Armor™* over copper foil shielding
- Boss elements on HDMI connectors ensure tight fit

MODEL: IHEC-X

- Designed, packaged and tested in Orlando Florida, USA
- Kit contains long length IHEC and HX102 cable extender
- Cable choices include: 12m, 15m & 20m
- Extends 12-bit/color 1080p up to 65 feet using 24AWG HDMI cable
- HX102 is connected after long run
- Includes 5 VDC/1A USB power supply with USB power cable

Coaxial Digital Audio

MODEL: 8AD

- Hand soldered in Orlando Florida, USA
- Tributaries 360° surround soldered ground
- Solid 2.5% silver-plated 18AWG LC-OFC conductors
- Best dielectric: Skin/Nitrogen-injected foam PE/Skin
- Full body gold-plated solid brass RCA connectors
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in custom lengths

MODEL: 6AD

- Hand soldered in Orlando Florida, USA
- Tributaries 360° surround soldered ground
- Solid 2.5% silver-plated 20AWG HC-OFC conductors
- Best dielectric: Skin/Nitrogen-injected foam PE/Skin
- Bridge solder reinforced gold-plated solid-brass connectors
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in custom lengths

MODEL: 4AD

- Hand soldered in Orlando Florida, USA
- 22AWG solid HC-OFC conductors
- Improved foamed PE dielectric
- Gold-plated solid-brass RCA connectors
- Highly flexible blue PVC jacket
- Available in custom lengths

MODEL: 2AD

- Hand soldered in Orlando, FL, USA
- 24AWG solid OFC conductors
- PE dielectric
- Low profile RCA connectors with aluminum covers
- Highly flexible black PVC jacket
- Available in custom lengths

Fiber Optic Digital Audio

MODEL: 4AO

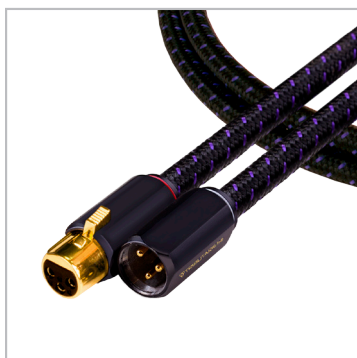

- Designed, packaged and tested in Orlando Florida, USA
- Machine polished convex lenses
- 1mm single-core plastic optical fiber in highly reflective cladding
- Toslink® SJ15 connector with molded cover
- Decorative woven jacket over a black PVC jacket
- Available in ½ meter to 6 meter lengths

Balanced Audio

MODEL: 8AB

- Hand soldered in Orlando Florida, USA
- Triple balanced 20AWG LC-OFC conductors
- Sophisticated multi-gauge design for superior bass, mids & highs
- Insulated conductors eliminate strand interaction/distortion
- Dual shielded to lower the noise floor
- Gold-plated solid-brass XLR connectors
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in custom lengths either pairs or mono cables

MODEL: 6AB

- Hand soldered in Orlando Florida, USA
- Dual balanced 20AWG HC-OFC conductors
- Sophisticated multi-gauge design for superior bass, mids & highs
- Insulated conductors eliminate strand interaction/distortion
- Dual shielded to lower the noise floor
- Gold-plated solid-brass XLR connectors
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in custom lengths either pairs or mono cables

MODEL: 4AB

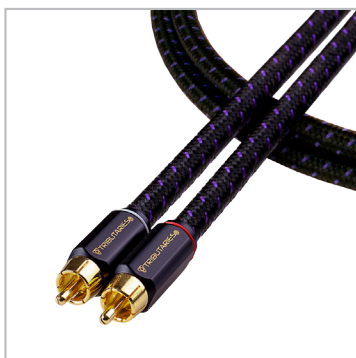

- Hand soldered in Orlando Florida, USA
- Precision twisted 22AWG HC-OFC for balanced audio
- Solid conductors for improved bass and accurate signal transfer
- LDPE eliminates distortion while maintaining flexibility
- Dual shielded to lower the noise floor
- Gold-plated solid-brass XLR connectors
- Decorative woven jacket over flexible PVC jacket
- Available in custom lengths either pairs or mono cables

Analog Audio

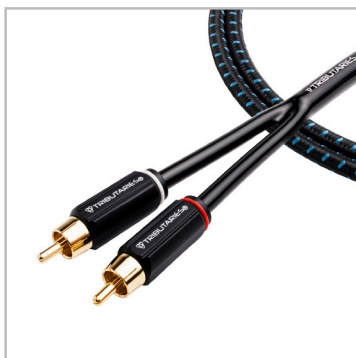

MODEL: 8A

- Hand soldered in Orlando Florida, USA
- Three twisted 20AWG LC-OFC conductors
- Sophisticated multi-gauge design for superior bass, mids & highs
- Dual shielded to lower the noise floor
- Full body connector construction for durability
- Gold-plated solid-brass RCA connectors
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in custom lengths either pairs or mono cables

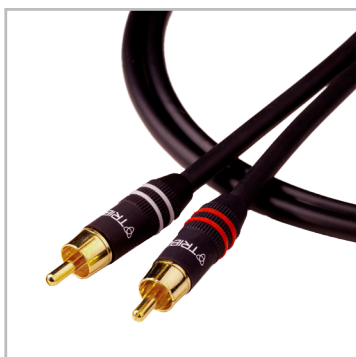

MODEL: 6A

- Hand soldered in Orlando Florida, USA
- Two twisted 20AWG HC-OFC conductors
- Sophisticated multi-gauge design for superior bass, mids & highs
- Dual shielded to lower the noise floor
- Bridge solder reinforces crimped ground & strain relief
- Gold-plated solid-brass RCA connectors
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in custom lengths either pairs or mono cables

MODEL: 4A

- Hand soldered in Orlando Florida, USA
- Precision twisted pairs of 22AWG HC-OFC for improved audio
- Solid conductors for improved bass and accurate signal transfer
- LDPE eliminates distortion while maintaining flexibility
- Dual shielded to lower the noise floor
- Gold-plated solid-brass RCA connectors
- Decorative woven jacket over black PVC jacket
- Available in custom lengths either pairs or mono cables

MODEL: 2A

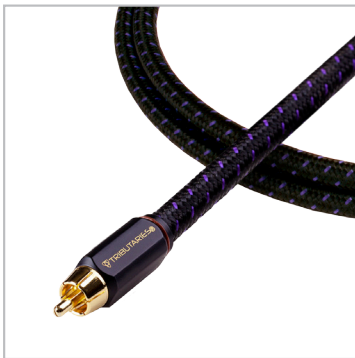

- Hand made in Orlando Florida, USA
- Precision twisted pairs of 24AWG solid OFC conductors
- Dual shielded to lower the noise floor
- LDPE eliminates distortion while maintaining flexibility
- Low profile RCA connectors with aluminum covers
- Highly flexible black PVC jacket
- Available in custom lengths

Subwoofer Cable

MODEL: 8S

- Hand soldered in Orlando Florida, USA
- Three twisted 20AWG LC-OFC conductors
- Sophisticated multi-gauge design for superior bass, mids & highs
- Dual shielded to lower the noise floor
- Full body connector construction for durability
- Gold-plated solid-brass RCA connectors
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in custom lengths

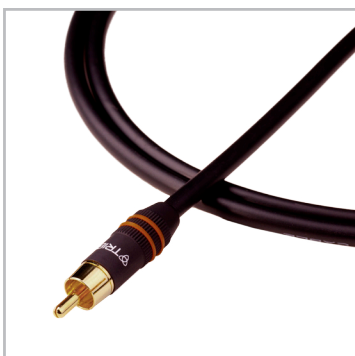

MODEL: 6S

- Hand soldered in Orlando Florida, USA
- Two twisted 20AWG HC-OFC conductors
- Sophisticated multi-gauge design for superior bass, mids & highs
- Dual shielded to lower the noise floor
- Bridge solder reinforces crimped ground & strain relief
- Gold-plated solid-brass RCA connectors
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in custom lengths

MODEL: 4S

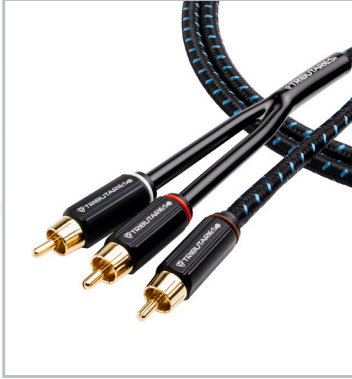

- Hand soldered in Orlando Florida, USA
- Precision twisted 22AWG HC-OFC for improved audio
- Solid conductors for improved bass and accurate signal transfer
- LDPE eliminates distortion while maintaining flexibility
- Dual shielded to lower the noise floor
- Gold-plated solid-brass RCA connectors
- Decorative woven jacket over black PVC jacket
- Available in custom lengths

MODEL: 2S

- Hand made in Orlando Florida, USA
- Precision twisted pairs of 24AWG solid OFC conductors
- Dual shielded to lower the noise floor
- LDPE eliminates distortion while maintaining flexibility
- Low profile RCA connectors with aluminum covers
- Highly flexible black PVC jacket
- Available in custom lengths

Subwoofer Y Cable

MODEL: 4SY

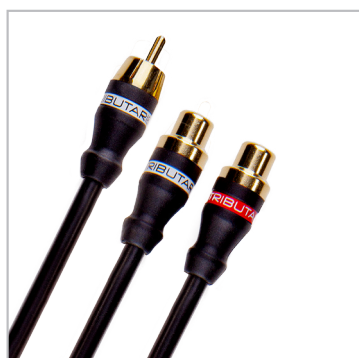

- Hand soldered in Orlando Florida, USA
- Precision twisted 22AWG HC-OFC for improved audio
- Solid conductors for improved bass and accurate signal transfer
- LDPE eliminates distortion while maintaining flexibility
- Dual shielded to lower the noise floor
- Gold-plated solid-brass RCA connectors
- Decorative woven jacket over black PVC jacket
- Available in custom lengths

Adapter Y

MODEL: 2Y-FMM

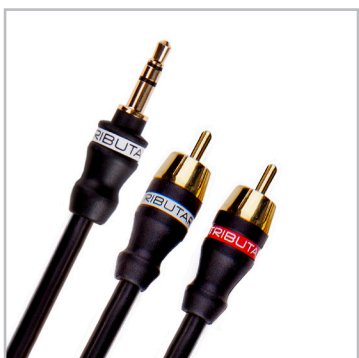

- Designed, packaged and tested in Orlando Florida, USA
- 9 inch Y cable in FMM configuration
- 22AWG solid OFC conductors
- PE insulator
- Dual shielded to lower the noise floor
- Low profile molded RCA connectors
- Highly flexible black PVC jacket

MODEL: 2Y-MFF

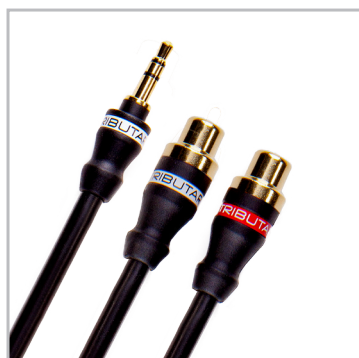

- Designed, packaged and tested in Orlando Florida, USA
- 9 inch Y cable in MFF configuration
- 22AWG solid OFC conductors
- PE insulator
- Dual shielded to lower the noise floor
- Low profile molded RCA
- Highly flexible black PVC jacket

Portable Audio Y

MODEL: 2YP-MMM

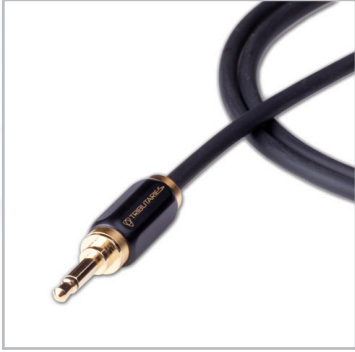

- Designed, packaged and tested in Orlando Florida, USA
- Portable Electronics Y cable in MMM configuration
- 22AWG solid OFC conductors
- PE insulator
- Dual shielded to lower the noise floor
- Low profile molded RCA & 3.5mm stereo connectors
- Highly flexible black PVC jacket
- Available in 1 meter, 2 meter & 3 meter

MODEL: 2YP-MFF

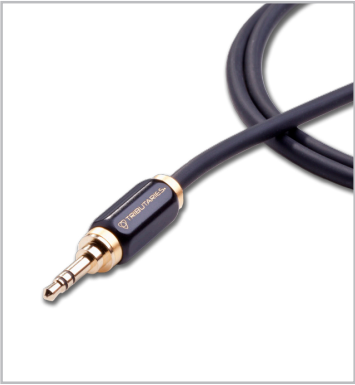

- Designed, packaged and tested in Orlando Florida, USA
- 9 inch Y cable in MFF configuration
- 22AWG solid OFC conductors
- PE insulator
- Dual shielded to lower the noise floor
- Low profile molded RCA & 3.5mm stereo connectors
- Highly flexible black PVC jacket

Portable Audio Mini Cables

MODEL: MMC

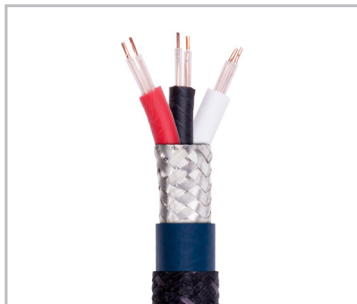

- Hand made in Orlando, FL
- Mini mono audio cable
- Three 28AWG stranded OFC conductors
- Suitable for use as a trigger cable for T10X, T100 & T200
- 3.5mm (1/8") mini mono plug connectors
- Gold-plated solid-brass connectors
- Highly flexible black PVC jacket
- Available in custom lengths

MODEL: MSC

- Hand made in Orlando, FL
- Mini stereo audio cable
- Three 28AWG stranded OFC conductors
- Suitable for use as a trigger or control cable
- Suitable for the stereo in/out of computer sound cards
- 3.5mm (1/8") mini stereo plug connectors
- Gold-plated solid-brass connectors
- Highly flexible black PVC jacket
- Available in custom lengths

Bulk Audio Cable

MODEL: CABLE-8A

- 20AWG LC-OFC conductor for superior signal transfer
- Three identical twisted conductors for triple balanced audio
- Sophisticated multi-gauge design for superior bass, mids & highs
- Insulated conductors eliminate strand interaction/distortion
- Dual shielded to lower the noise floor
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in 100 meter spools or shorter custom lengths

MODEL: CABLE-6A

- 20AWG HC-OFC conductor for superior signal transfer
- Two identical twisted conductors for balanced audio
- Sophisticated multi-gauge design for superior bass, mids & highs
- Insulated conductors eliminate strand interaction/distortion
- Dual shielded to lower the noise floor
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in 100 meter spools or shorter custom lengths

MODEL: CABLE-4A

- Designed with 2 pairs for L/R audio in one jacket
- Precision twisted pairs of 22AWG HC-OFC for improved audio
- Solid conductors for improved bass and accurate signal transfer
- LDPE eliminates distortion while maintaining flexibility
- Dual shielded to lower the noise floor
- Decorative woven jacket over flexible black PVC jacket
- Available in 100 meter spools or shorter custom lengths

MODEL: CABLE-2A

- Siamese design audio pair
- Precision twisted pairs of 24AWG solid OFC conductors
- Dual shielded to lower the noise floor
- LDPE eliminates distortion while maintaining flexibility
- Low profile RCA connectors with aluminum covers
- Highly flexible black PVC jacket
- Available in 100 meter spools or shorter custom lengths

MODEL: CABLE-MINI

- Audio cable used for mini stereo & mini mono cables
- Three 28AWG stranded conductors
- Available in 100 meter spools or shorter custom lengths

Bulk Audio Connectors

MODEL: CON-8X

- Male and female XLR connectors
- Best insulator: Teflon between signal & ground
- Machined from solid brass then gold-plated
- Solid-brass covers in attractive metallic gun metal finish
- Available in red and white

MODEL: CON-6X

- Male and female XLR connectors
- Best insulator: Teflon between signal & ground
- Machined from solid brass then gold-plated
- Solid-brass covers in attractive matte black finish
- Available in red and white

MODEL: CON-4X

- Male and female XLR connectors
- PE Insulator between signal & ground
- Machined from solid brass then gold-plated
- Solid-brass covers in attractive matte black finish
- Available in red and white

Bulk RCA Audio Connectors

MODEL: CON-8RA

- RCA connector suitable for analog and digital transmission
- Best insulator: Teflon between signal & ground
- Machined from solid brass then gold-plated
- Full body construction for durability
- Solid-brass covers in attractive metallic gun metal finish
- Available in brown, red & white

MODEL: CON-6R

- RCA connector
- PE insulator between signal & ground
- Machined from solid brass then gold-plated
- 2 piece crimped construction for strain relief
- Solid-brass covers in attractive matte black finish
- Available in brown, red & white

MODEL: CON-4RA

- RCA connector with 6.5mm rear opening
- Fits CABLE-4A breakout of L/R audio
- PE insulator between signal & ground
- Machined from solid brass then gold-plated
- 2 piece crimped construction for strain relief
- Solid-brass covers with glossy black finish
- Available in red & white

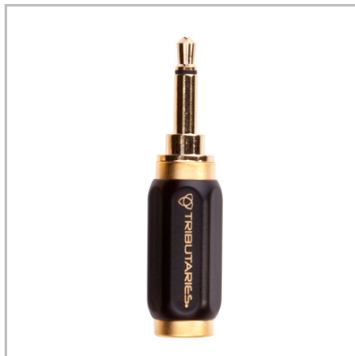

MODEL: CON-4R

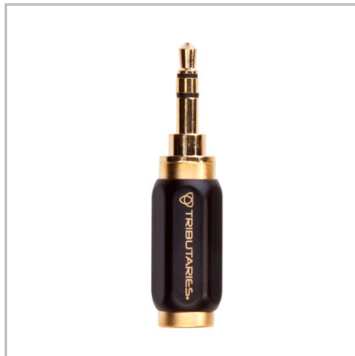

- RCA connector with 8.0mm rear opening
- Fits CABLE-4A and CABLE-4D overall cable
- PE insulator between signal & ground
- Machined from solid brass then gold-plated
- 2 piece crimped construction for strain relief
- Solid-brass covers with glossy black finish
- Available in blue, brown, green, orange, red & yellow

**MODEL: CON-2R**

- Low Profile RCA connector
- PE insulator between signal & ground
- Machined from solid brass then gold-plated
- 2 piece crimped construction for strain relief
- Aluminum covers with black painted finish
- Available in brown, red & white

Bulk 3.5mm Mini Plugs**MODEL: CON-MINIM**

- 1/8" mini mono plug
- Two connections for tip and sleeve
- PE insulator between signal & ground
- Machined from solid brass then gold-plated
- 2 piece crimped construction for strain relief
- Solid-brass covers with painted finish
- Available in black

**MODEL: CON-MINIS**

- 1/8" mini stereo plug
- Three connections for tip, ring and sleeve
- PE insulator between signal & ground
- Machined from solid brass then gold-plated
- 2 piece crimped construction for strain relief
- Solid-brass covers with painted finish
- Available in black

Terminated Star Quad Bi-wire Speaker Cables

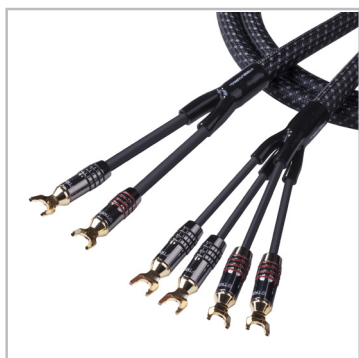

MODEL: 8BW-B

- Hand made in Orlando Florida, USA
- Unique design by Jay Victor for superior sound quality
- Four 14AWG LC-OFC conductors for best signal transfer
- 3 separate wire gauges for best bass, midrange and highs
- Propriety optimized cable geometry for low noise & distortion
- Gold plated solid brass Series 8 double locking banana plugs
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in custom length, sold by each

MODEL: 8BW-BL

- Hand made in Orlando Florida, USA
- Unique design by Jay Victor for superior sound quality
- Four 14AWG LC-OFC conductors for best signal transfer
- 3 separate wire gauges for best bass, midrange and highs
- Propriety optimized cable geometry for low noise & distortion
- Gold plated solid brass Series 8 banana plugs & spade lugs
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in custom length, sold by each

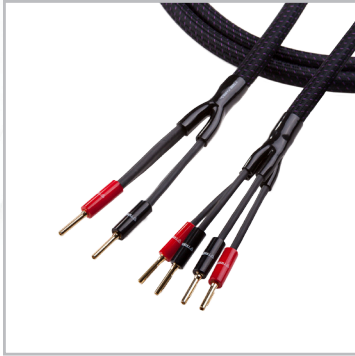

MODEL: 8BW-L

- Hand made in Orlando Florida, USA
- Unique design by Jay Victor for superior sound quality
- Four 14AWG LC-OFC conductors for best signal transfer
- 3 separate wire gauges for best bass, midrange and highs
- Propriety optimized cable geometry for low noise & distortion
- Gold plated solid brass Series 8 spade lugs
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in custom length, sold by each

MODEL: 8BW-LB

- Hand made in Orlando Florida, USA
- Unique design by Jay Victor for superior sound quality
- Four 14AWG LC-OFC copper conductors for best signal transfer
- 3 separate wire gauges for best bass, midrange and highs
- Propriety optimized cable geometry for low noise & distortion
- Gold plated solid brass Series 8 spade lugs & banana plugs
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in custom length, sold by each

**MODEL: 6BW-B**

- Hand made in Orlando Florida, USA
- Four 14AWG HC-OFC conductors for superior signal transfer
- Sophisticated multi-gauge design for superior bass, mids & highs
- Insulated solid conductor eliminates distortion with bundles
- Gold plated spring clip banana plugs: BP106
- Decorative woven jacket over a UL® CL2 PVC Jacket
- Available in custom lengths, sold by each

**MODEL: 6BW-BL**

- Hand made in Orlando Florida, USA
- Four 14AWG HC-OFC conductors for superior signal transfer
- Sophisticated multi-gauge design for superior bass, mids & highs
- Insulated solid conductor eliminates distortion with bundles
- Gold plated spring clip banana plugs & spade lugs
- Decorative woven jacket over a UL® CL2 PVC Jacket
- Available in custom lengths, sold by each

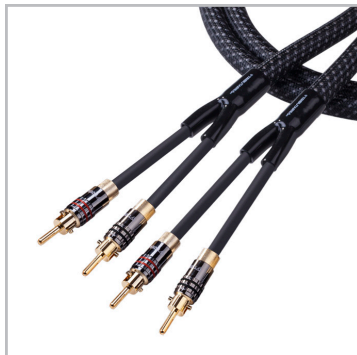

**MODEL: 6BW-L**

- Hand made in Orlando Florida, USA
- Four 14AWG HC-OFC conductors for superior signal transfer
- Sophisticated multi-gauge design for superior bass, mids & highs
- Insulated solid conductor eliminates distortion with bundles
- Gold plated spade lugs: SL8
- Decorative woven jacket over a UL® CL2 PVC Jacket
- Available in custom lengths, sold by each

**MODEL: 6BW-LB**

- Hand made in Orlando Florida, USA
- Four 14AWG HC-OFC conductors for superior signal transfer
- Sophisticated multi-gauge design for superior bass, mids & highs
- Insulated solid conductor eliminates distortion with bundles
- Gold plated spade lugs & spring clip banana plugs
- Decorative woven jacket over a UL® CL2 PVC Jacket
- Available in custom lengths, sold by each

Terminated Star-Quad Speaker Cables

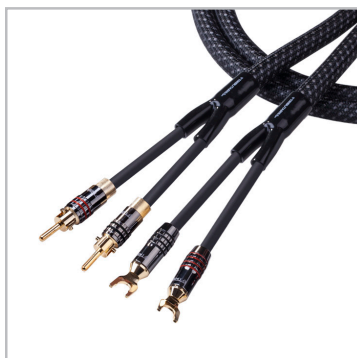

MODEL: 8SP-B

- Hand made in Orlando Florida, USA
- Unique design by Jay Victor for superior sound quality
- Two 11AWG LC-OFC conductors for best signal transfer
- 3 separate wire gauges for best bass, midrange and highs
- Propriety optimized cable geometry for low noise and distortion
- Gold plated solid brass Series 8 double locking banana plugs
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in custom length, sold by each

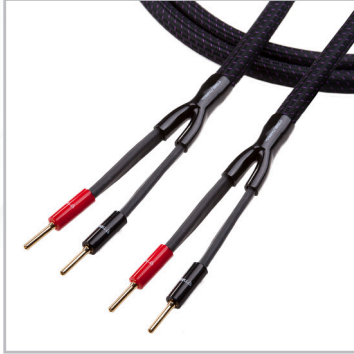

MODEL: 8SP-L

- Hand made in Orlando Florida, USA
- Star-Quad design reduces cable inductance and distortion
- Two 11AWG LC-OFC conductors for best signal transfer
- 3 separate wire gauges for best bass, midrange and highs
- Propriety optimized cable geometry for low noise and distortion
- Gold plated solid brass Series 8 spade lugs
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in custom length, sold by each

MODEL: 8SP-LB

- Hand made in Orlando Florida, USA
- Star-Quad design reduces cable inductance and distortion
- Two 11AWG LC-OFC conductors for best signal transfer
- 3 separate wire gauges for best bass, midrange and highs
- Propriety optimized cable geometry for low noise and distortion
- Gold plated solid brass Series 8 spade lugs & banana plugs
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in custom length, sold by each

**MODEL: 6SP-B**

- Hand made in Orlando Florida, USA
- Star-Quad design reduces cable inductance and distortion
- Two 11AWG HC-OFC conductors for superior signal transfer
- Sophisticated multi-gauge design for superior bass, mids & highs
- Insulated solid conductor eliminates distortion with bundles
- Gold plated spring clip banana plugs: BP106
- Decorative woven jacket over a UL® CL2 PVC Jacket
- Available in custom lengths, sold by each

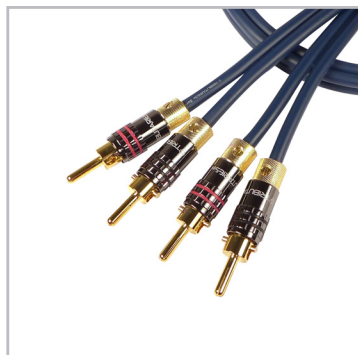

**MODEL: 6SP-L**

- Hand made in Orlando Florida, USA
- Star-Quad design reduces cable inductance and distortion
- Two 11AWG HC-OFC conductors for superior signal transfer
- Sophisticated multi-gauge design for superior bass, mids & highs
- Insulated solid conductor eliminates distortion with bundles
- Gold plated spade lugs: SL8
- Decorative woven jacket over a UL® CL2 PVC Jacket
- Available in custom lengths, sold by each

**MODEL: 6SP-LB**

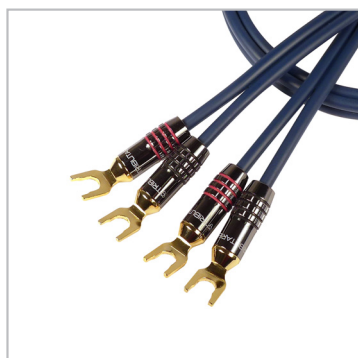

- Hand made in Orlando Florida, USA
- Star-Quad design reduces cable inductance and distortion
- Two 11AWG HC-OFC conductors for superior signal transfer
- Sophisticated multi-gauge design for superior bass, mids & highs
- Insulated solid conductor eliminates distortion with bundles
- Gold plated spring clip banana plugs & spade lugs
- Decorative woven jacket over a UL® CL2 PVC Jacket
- Available in custom lengths, sold by each

Terminated Speaker Cables

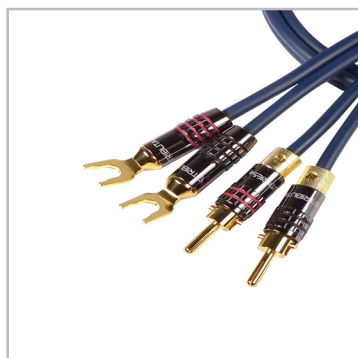

MODEL: 8SP12-B

- Hand made in Orlando Florida, USA
- Two 12AWG LC-OFC conductors
- Sophisticated multi-gauge design for superior bass, mids & highs
- Insulated solid conductor eliminates distortion with bundles
- Precision-crafted PE dielectric for low loss & maximum definition
- Gold plated solid brass Series 8 banana plugs
- Highly flexible Siamese design UL® CL2 PVC Jacket
- Available in custom lengths, sold by each

MODEL: 8SP12-L

- Hand made in Orlando Florida, USA
- Two 12AWG LC-OFC conductors for best signal transfer
- Sophisticated multi-gauge design for superior bass, mids & highs
- Insulated solid conductor eliminates distortion with bundles
- Precision-crafted PE dielectric for low loss & maximum definition
- Gold plated solid brass Series 8 spade lugs
- Highly flexible Siamese design UL® CL2 PVC Jacket
- Available in custom lengths, sold by each

MODEL: 8SP12-LB

- Hand made in Orlando Florida, USA
- Two 12AWG LC-OFC conductors for best signal transfer
- Sophisticated multi-gauge design for superior bass, mids & highs
- Insulated solid conductor eliminates distortion with bundles
- Precision-crafted PE dielectric for low loss & maximum definition
- Gold plated solid brass Series 8 spade lugs & banana plugs
- Highly flexible Siamese design UL® CL2 PVC Jacket
- Available in custom lengths, sold by each

**MODEL: 5SP12-B**

- Hand made in Orlando Florida, USA
- Two 12AWG HC-OFC conductors for superior signal transfer
- Two wire gauges per conductor for extended bass response
- Gold-plated solid brass BP101 banana plugs
- Highly flexible Siamese design UL® CL2 PVC Jacket
- Available in custom lengths, sold by each

**MODEL: 5SP12-L**

- Hand made in Orlando Florida, USA
- Two 12AWG HC-OFC conductors for superior signal transfer
- Two wire gauges per conductor for extended bass response
- Gold plated solid brass SL8 spade lugs
- Highly flexible Siamese design UL® CL2 PVC Jacket
- Available in custom lengths, sold by each

**MODEL: 5SP14-B**

- Hand made in Orlando Florida, USA
- Two 14AWG HC-OFC conductors for superior signal transfer
- Two wire gauges per conductor for extended bass response
- Gold-plated solid brass BP103 banana plugs
- Highly flexible Siamese design UL® CL2 PVC Jacket
- Available in custom lengths, sold by each

**MODEL: 5SP14-L**

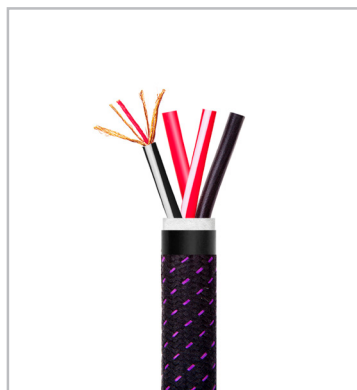

- Hand made in Orlando Florida, USA
- Two 14AWG HC-OFC conductors for superior signal transfer
- Two wire gauges per conductor for extended bass response
- Gold-plated solid brass SL8 spade lugs
- Highly flexible Siamese design UL® CL2 PVC Jacket
- Available in custom lengths, sold by each

Bulk Bi-Wire Speaker Wire

MODEL: SP8BW-BK02S

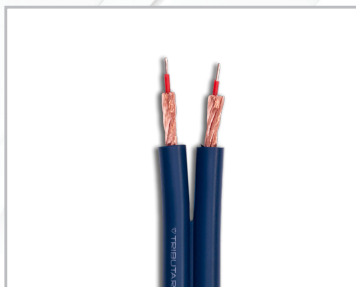

- Unique Design by Jay Victor for superior sound quality
- Star-Quad design reduces cable inductance and distortion
- Four 14AWG LC-OFC conductors with 4.5mm O.D.
- Cable suitable for Bi-wire or 2 channel applications
- Perfect-balance twisted conductors for low distortion & noise
- 3 separate wire gauges for best bass, midrange and highs
- Insulated conductors eliminate strand interaction/distortion
- Decorative black & grey woven jacket over black UL® CL2 PVC Jacket
- Available in 200 foot spools or shorter custom lengths

MODEL: SP6BW-BK02S

- Star-Quad design reduces cable inductance and distortion
- Four 14AWG HC-OFC conductors with 4.0mm O.D.
- Cable suitable for Bi-wire or 2 channel applications
- Sophisticated multi-gauge design for superior bass, mids & highs
- Precision-crafted PE dielectric for low loss & maximum definition
- Insulated solid conductor eliminates distortion with bundles
- Attractive black & violet woven jacket over black UL® CL2 PVC jacket
- Available in 200 foot spools or shorter custom lengths

Bulk Speaker Wire

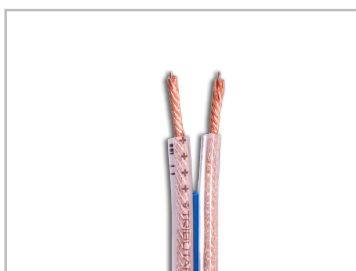

MODEL: SP812UL-BL02S

- Two 12AWG LC-OFC conductors with 6mm O.D.
- Sophisticated multi-gauge design for superior bass, mids & highs
- Insulated solid conductor eliminates distortion with bundles
- Precision-crafted PE dielectric for low loss & maximum definition
- Highly flexible Siamese design UL® CL2 PVC Jacket
- Available in 200 foot spools or shorter custom lengths

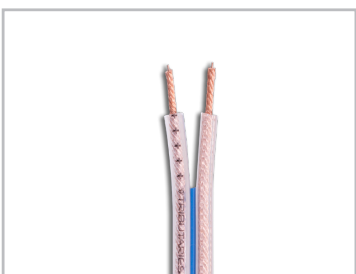

MODEL: SP614F-BK02S

- Two 14AWG HC-OFC conductors with 7.0mm O.D.
- Flat design for fishing under carpets or baseboards
- Matte black jacket can be painted if wire is exposed
- Highly flexible Siamese design UL® CL2 PVC Jacket
- Available in 200 foot spools or shorter custom lengths

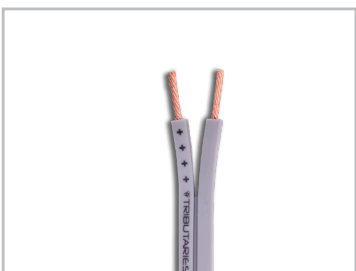

MODEL: SP512-CL02S

- Two 12AWG HC-OFC conductors with 6.0mm O.D.
- Two wire gauges per conductor for extended bass response
- Stranded for flexibility
- Highly flexible Siamese design clear PVC Jacket
- Available in 200 foot spools or shorter custom lengths

MODEL: SP514-CL02S

- Two 14AWG HC-OFC conductors with 5.0mm O.D.
- Two wire gauges per conductor for extended bass response
- Stranded for flexibility
- Highly flexible Siamese design clear PVC Jacket
- Available in 200 foot spools or shorter custom lengths

MODEL: SP316-GY02S

- Two 16AWG OFC conductors with 4.0mm O.D.
- Stranded for flexibility
- Highly flexible Siamese gray PVC jacket
- Available in 200 foot spools or shorter custom lengths

Speaker Connectors: Banana Plugs

MODEL: CON-8BPL

- Series 8 double locking banana plug
- Large 9.5mm I.D. rear opening for large cables
- Accepts up to 10AWG conductors
- Dual screw terminals makes installation fast and secure
- Machined from solid brass then gold-plated
- Available in red & black
- Sold in each

MODEL: CON-8BPS

- Series 8 double locking banana plug
- 6.5mm I.D. rear opening
- Accepts up to 10AWG conductors
- Dual screw terminals makes installation fast and secure
- Machined from solid brass then gold-plated
- Available in red & black
- Sold in each

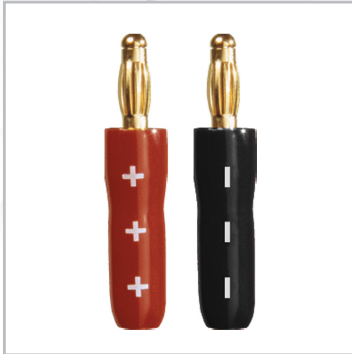

MODEL: CON-BP101

- Banana plug with screw terminal connections
- 8.0mm I.D. rear opening
- Accepts up to 12AWG conductors
- Machined from solid brass then gold-plated
- Plastic covers easily removes from plug end
- Available in red & black
- Sold in each, bulk/100 pr, display/2 pr & master pak/12 displays

MODEL: CON-BP102

- Quick Connect Banana plug with stackable connections
- Accepts up to 10AWG conductors
- Machined from solid brass then gold-plated
- Available in red & black
- Sold in each, bulk/24 pr, display/pr & master pak/12 displays

**MODEL: CON-BP103**

- Crimp or solder-on Banana plug
- 4.0mm I.D. rear opening
- Accepts up to 10AWG conductors
- Machined from solid brass then gold-plated
- Soft gel cover, available in red & black
- Sold in each, bulk /100 pr, display/2 pr & master pak/12 displays

**MODEL: CON-BP104**

- Right angle Banana plug with screw terminal connections
- 4.0mm I.D. rear opening
- Accepts up to 12AWG conductors
- Machined from solid brass then gold-plated
- Soft gel cover, available in red & black
- Sold in each, bulk/24 pr, display/pr & master pak/10 displays

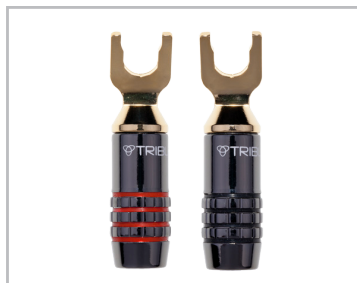

**MODEL: CON-BP105**

- Spring clip Banana plug with screw terminal connections
- 6.5mm I.D. rear opening
- Accepts up to 12AWG conductors
- Machined from solid brass then gold-plated
- Solid-brass covers in attractive gun metal finish
- Available in red & black
- Sold in each, bulk/24 pr, display/pr & master pak/12 displays

**MODEL: CON-BP106**

- Spring clip Banana plug with screw terminal connections
- 8.0mm I.D. rear opening
- Accepts up to 12AWG conductors
- Machined from solid brass then gold-plated
- Plastic covers easily removes from plug end
- Available in red & black
- Sold in each, bulk/24 pr, display/pr & master pak/12 displays

Speaker Connectors: Spade Lugs

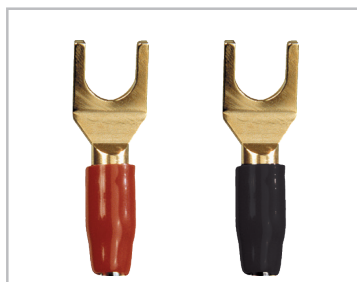

MODEL: CON-8SLL

- Series 8 spade lug with a 9.5mm lug opening
- Large 9.5mm I.D. rear opening, accepts up to 10AWG conductors
- Dual screw terminals makes installation fast and secure
- Machined from solid brass then gold-plated
- Available in red & black, sold in each

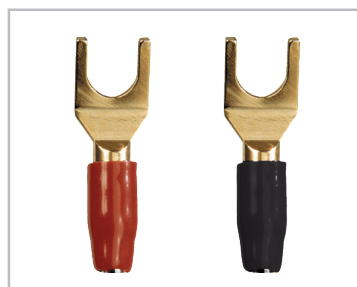

MODEL: CON-8SLS

- Series 8 spade lug with a 9.5mm lug opening
- 6.5mm I.D. rear opening, accepts up to 10AWG conductors
- Dual screw terminals makes installation fast and secure
- Machined from solid brass then gold-plated
- Available in red & black, sold in each

MODEL: CON-SL8

- Spade lug with a 9.5mm lug opening
- 7.0mm I.D. rear opening, accepts up to 10AWG conductors
- Dual screw terminals makes installation fast and secure
- Machined from solid brass then gold-plated
- Soft gel cover, available in red & black
- Sold in each, bulk/24 pr, display/pr & master pak/12 displays

MODEL: CON-SL8L

- Spade Lug with 9.5mm lug opening
- 8.5mm I.D. rear opening, accepts up to 10AWG conductors
- Dual screw terminals makes installation fast and secure
- Machined from solid brass then gold-plated
- Soft gel cover, available in red & black
- Sold in each, bulk/24 pr, display/pr & master pak/12 displays

MODEL: CON-SL10

- Small Spade lug with 6.5mm lug opening
- 5.0mm I.D. rear opening, accepts up to 10AWG conductors
- Crimp or solder-on gold-plated connectors
- Soft gel cover, available in red & black
- Sold in each, bulk/24 pr, display/2 pr & master pak/12 displays

Accessories for Speaker Wire

MODEL: BOOT-8BW4

- Four finger boot for SP8BW
- Flexible & durable rubber
- Glossy black finish

MODEL: BOOT-8BW2

- Two finger boot for SP8BW
- Flexible & durable rubber
- Glossy black finish

MODEL: KIT-8BW

- Kit for SP8BW
- 10 four finger boots
- 10 two finger boots
- Heat shrink for 10 bi-wire cables

MODEL: BOOT-6BW4

- Four finger boot for SP6BW
- Flexible & durable rubber
- Glossy black finish

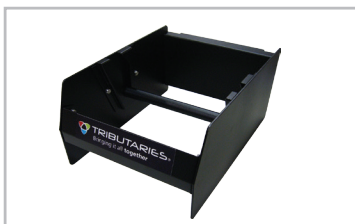

MODEL: BOOT-6BW2

- Two finger boot for SP6BW
- Flexible & durable rubber
- Glossy black finish

MODEL: KIT-6BW

- Kit for SP6BW
- 10 four finger boots
- 10 two finger boots
- Heat shrink for 10 bi-wire cables

MODEL: STAND

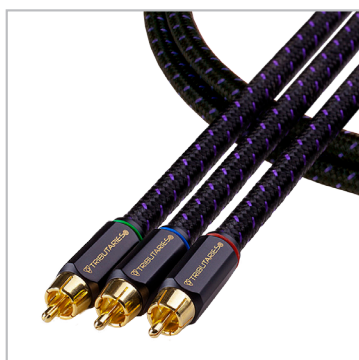

- Manufactured in Orlando Florida, USA
- Slat wall spool holder
- Durable steel construction

Component Video

MODEL: 8VC

- Hand soldered in Orlando Florida, USA
- Tributaries 360° surround soldered ground
- Solid 2.5% silver-plated 18AWG LC-OFC conductors
- Best dielectric: Skin/Nitrogen-injected foam PE/Skin
- Full body connector construction for durability
- Gold-plated solid-brass RCA connectors
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in custom lengths

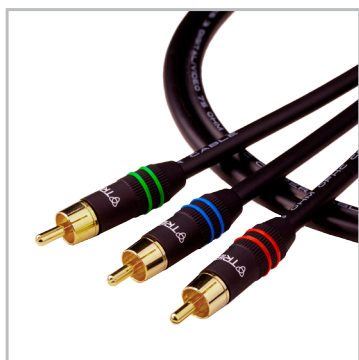

MODEL: 6VC

- Hand soldered in Orlando Florida, USA
- Tributaries 360° surround soldered ground
- Solid 2.5% silver-plated 20AWG HC-OFC conductors
- Best dielectric: Skin/Nitrogen-injected foam PE/Skin
- Bridge solder reinforces crimped ground & strain relief
- Gold-plated solid-brass RCA connectors
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in custom lengths

MODEL: 4VC

- Hand soldered in Orlando Florida, USA
- 22AWG solid HC-OFC conductors
- Improved foamed PE dielectric
- Gold-plated solid-brass RCA connectors
- Decorative woven jacket over black PVC jacket
- Available in custom lengths

MODEL: 2VC

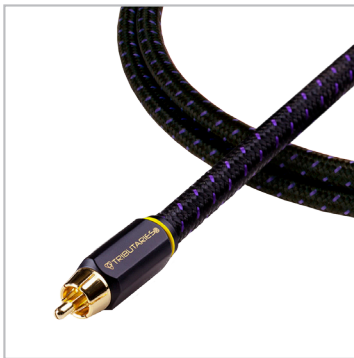

- Hand soldered in Orlando, FL, USA
- 24AWG solid OFC conductors
- PE dielectric
- Low profile RCA connectors with aluminum covers
- Highly flexible black PVC jacket
- Available in custom lengths

Composite Video

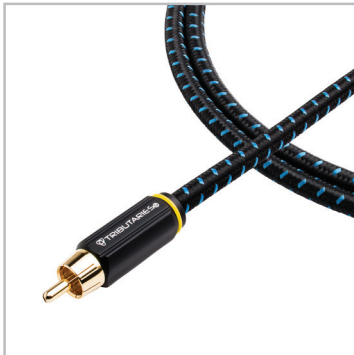

MODEL: 8V

- Hand soldered in Orlando Florida, USA
- Tributaries 360° surround soldered ground
- Solid 2.5% silver-plated 18AWG LC-OFC conductors
- Best dielectric: Skin/Nitrogen-injected foam PE/Skin
- Full body connector construction for durability
- Gold-plated solid-brass RCA connectors
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in custom lengths

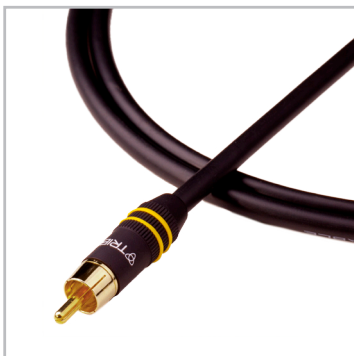

MODEL: 6V

- Hand soldered in Orlando Florida, USA
- Tributaries 360° surround soldered ground
- Solid 2.5% silver-plated 20AWG HC-OFC conductors
- Best dielectric: Skin/Nitrogen-injected foam PE/Skin
- Bridge solder reinforces crimped ground & strain relief
- Gold-plated solid-brass RCA connectors
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in custom lengths

MODEL: 4V

- Hand soldered in Orlando Florida, USA
- 22AWG solid HC-OFC conductors
- Improved foamed PE dielectric
- Gold-plated solid-brass RCA connectors
- Decorative woven jacket over black PVC jacket
- Available in custom lengths

MODEL: 2V

- Hand soldered in Orlando, FL, USA
- 24AWG solid OFC conductors
- PE dielectric
- Low profile RCA connectors with aluminum covers
- Highly flexible black PVC jacket
- Available in custom lengths

Bulk Video Cable

MODEL: CABLE-8D

- 75 ohm RG6-type coax construction
- Suitable for use with Belden RG6 compression connectors
- Solid 2.5% silver-plated 18AWG LC-OFC conductor
- Best dielectric: Skin/Nitrogen injected foam PE/Skin
- Dual shielded to lower the noise floor
- Paper layer for extra flexibility
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in 100 meter spools or shorter custom lengths

MODEL: CABLE-6D

- 75 ohm RG59-type coax construction
- Suitable for use with Belden RG59 compression connectors
- Solid 2.5% silver-plated 20AWG HC-OFC conductor
- Best dielectric: Skin/Nitrogen injected foam PE/Skin
- Dual shielded to lower the noise floor
- Paper layer for extra flexibility
- Decorative woven jacket over a UL® CL2 PVC jacket
- Available in 100 meter spools or shorter custom lengths

MODEL: CABLE-4D

- 75 ohm coaxial construction
- 22AWG solid HC-OFC conductor
- Improved foamed PE dielectric
- Dual shielded to lower the noise floor
- Decorative woven jacket over black PVC jacket
- Available in 100 meter spools or shorter custom lengths

MODEL: CABLE-2D

- 75 ohm coaxial construction
- 24AWG solid OFC conductor
- PE dielectric
- Dual shielded to lower the noise floor
- Highly flexible black PVC jacket
- Available in 100 meter spools or shorter custom lengths

Video Connectors

MODEL: CON-8RV

- RCA connector with 75 ohm impedance
- Best insulator: Teflon between signal & ground
- Machined from solid brass then gold-plated
- Full body construction for durability
- Solid-brass covers in attractive metallic gun metal finish
- Available in blue, green, red, orange & yellow

MODEL: CON-6R

- RCA connector
- PE insulator between signal & ground
- Machined from solid brass then gold-plated
- 2 piece crimped construction for strain relief
- Solid-brass covers in attractive matte black finish
- Available in blue, green, red, orange & yellow

MODEL: CON-4R

- RCA connector with 8.0mm rear opening
- PE insulator between signal & ground
- Machined from solid brass then gold-plated
- 2 piece crimped construction for strain relief
- Solid-brass covers in attractive glossy black finish
- Available in blue, brown, green, orange, red & yellow

MODEL: CON-2R

- Low Profile RCA connector
- PE insulator between signal & ground
- Machined from solid brass then gold-plated
- 2 piece crimped construction for strain relief
- Aluminum covers with black painted finish
- Available in blue, green, orange, red & yellow

Adapters for Digital Signals

MODEL: ADAP-RAHDMIA

- Right angle HDMI adapter, female HDMI to male HDMI
- Passes 1080p High Speed with Ethernet signals
- 100 ohm impedance
- With the HDMI connector flat side up, adapter turns 90° down
- Low profile 3/4" molded adapter with gold-plated connections
- Available in each, bulk/25, display each & master pak/10 displays

MODEL: ADAP-RAHDMIB

- Right angle HDMI adapter, female HDMI to Male HDMI
- Passes 1080p High Speed with Ethernet signals
- 100 ohm impedance
- With the HDMI connector flat side down, adapter turns 90° down
- Low profile 3/4" molded adapter with gold-plated connections
- Available in each, bulk/25, display each & master pak/10 displays

MODEL: ADAP-RAHDMIC

- Right angle HDMI adapter, female HDMI to Male HDMI
- Passes 1080p High Speed with Ethernet signals
- 100 ohm impedance
- With the HDMI connector flat side down, adapter turns 90° left
- Low profile 3/4" molded adapter with gold-plated connections
- Available in each, bulk/25, display each & master pak/10 displays

MODEL: ADAP-RAHDMID

- Right angle HDMI adapter, female HDMI to Male HDMI
- Passes 1080p High Speed with Ethernet signals
- 100 ohm impedance
- With the HDMI connector flat side down, adapter turns 90° right
- Low profile 3/4" molded adapter with gold-plated connections
- Available in each, bulk/25, display each & master pak/10 displays

MODEL: ADAP-DVIDHDMI

- DVID to HDMI adapter for digital video only, will not pass audio or control
- Female DVID to male HDMI
- 100 ohm impedance
- Gold-plated contacts in molded case
- Sold in each & display/each

**MODEL: ADAP-HDMIDVID**

- HDMI to DVI-D adapter for digital video only, will not pass audio or control
- Female HDMI to male DVI-D
- 100 ohm impedance
- Gold-plated contacts in molded case
- Sold in each & display/each

Adapters for Video Signals

**MODEL: ADAP-RCABNC**

- RCA adapter to BNC
- Female RCA to male BNC
- 75 ohm impedance
- Machined from solid brass then gold-plated
- Sold in each, bulk/25 display/each, & master pack/10 displays

**MODEL: ADAP-BNCRCA**

- BNC adapter to RCA
- Female BNC to male RCA
- 75 ohm impedance
- Machined from solid brass then gold-plated
- Sold in each, bulk/25, display/each, & master pack/10 displays

**MODEL: ADAP-RAF**

- Right angle RF adapter
- Female F to male F
- 75 ohm impedance
- Machined from solid brass then gold-plated
- Sold in each, bulk/25, display/each, & master pak/10 displays

**MODEL: ADAP-FRCA**

- F adapter to RCA
- Female F to male RCA
- 75 ohm impedance
- Machined from solid brass then gold-plated
- Sold in each, bulk/25, display/each, & master pak/10 displays

**MODEL: ADAP-FBNC**

- F adapter to BNC
- Female F to male BNC
- 75 ohm impedance
- Machined from solid brass then gold-plated
- Sold in each, bulk/25, display/each, & master pak/10 displays

Adapters for Audio Signals

**MODEL: ADAP-RARCA**

- Right angle RCA adapter
- Female RCA to male RCA
- 50 ohm impedance
- Machined from solid brass then gold-plated
- Available in long neck white & short neck red, stackable
- Sold in each, bulk/25 pair, display/pair & master pak/10 displays

Couplers for Digital Signals

**MODEL: COUP-HDMI**

- 1080p HDMI coupler
- Female HDMI to female HDMI
- 100 ohm impedance
- Gold-plated contacts in molded case
- Sold in each, bulk/25, display/each, & master pak/10 displays

**MODEL: COUP-O**

- Optical coupler with Toslink® SJ15 connections
- Female Optical to female Optical
- Sold in each, bulk/25, display/each, & master pak/10 displays

**MODEL: COUP-RJ45**

- RJ45 coupler for data
- Female RJ45 to female RJ45
- Can be used for 4-pin & 6-pin applications
- Gold-plated contacts in molded case
- Sold in each & bulk /25 each

Couplers for Video Signals

MODEL: COUP-BNC

- BNC coupler
- Female BNC to female BNC
- 75 ohm impedance
- Machined from solid brass then gold-plated
- Sold in each, bulk/25, display/each, & master pak/10 displays

MODEL: COUP-F

- F coupler
- Female F to female F
- 75 ohm impedance
- Machined from solid brass then gold-plated
- Sold in each, bulk/25, display/each, & master pak/10 displays

Couplers for Audio Signals

MODEL: COUP-RCA

- RCA coupler
- Female RCA to female RCA
- 50 ohm impedance
- Machined from solid brass then gold-plated
- Sold in each, bulk/25, display/each, & master pak/10 displays

HDMI® Electronics-Converters

MODEL: ELEC-HC100

- Converts component video & optical audio into HDMI
- Passes HDMI resolutions of 480p to 1080p
- HDCP compliant
- Includes 5 volt power supply

HDMI® Electronics-Extenders

MODEL: ELEC-HX102

- Extends 12-bit/color 1080p up to 98 feet using 24AWG HDMI cable
- Unit is connected after long run
- Supports HDMI features of Ethernet, 3D, 4K, ARC, CEC & HDCP
- Supports 8 Channel LPCM: 192KHZ, 24-bit audio
- Includes 5 VDC/1A USB power supply with USB power cable
- Patent Pending

MODEL: IHEC-X

- Designed, packaged and tested in Orlando Florida, USA
- Kit contains long length IHEC and HX102 cable extender
- Cable choices include: 12m, 15m & 20m
- Extends 12-bit/color 1080p up to 98 feet using 24AWG HDMI cable
- HX102 is connected after long run
- Includes 5 VDC/1A USB power supply with USB power cable

MODEL: ELEC-HX1C6-LITE

- Extends uncompressed HDMI
- Extends 16-bit/color 1080p HDMI up to 190 feet over a single CAT6
- Signal is transmitted over single solid copper 23AWG CAT6
- Supports bi-directional IR
- HDMI 1.3, HDCP 2.0, DVI 1.1 compliant
- Supports 3D, Dolby® Digital plus and DTS®, EDID and CEC pass thru
- Includes universal 5 VDC/2.0 CE/FCC/UL® power supply & IR cables

MODEL: ELEC-HX1C6-PRO

- Extends uncompressed HDMI
- Extends 12-bit/color 1080p HDMI up to 300 feet over a single CAT6
- Signal is transmitted over single solid copper 23AWG CAT6
- Supports bi-directional IR and RS232 control
- Supports 3D, Dolby® TruHD & HDMaster Audio®, EDID & CEC pass thru
- Includes universal 5 VDC/2.5A power supply & IR cables

MODEL: ELEC-HX1RG6

- Extends uncompressed HDMI over 3GSDI technology
- Extends 12-bit/color 1080p HDMI up to 390 feet over a single RG6
- Requires solid copper dual shielded RG6 or RG59
- Supports IR signaling from the display to a remote source
- Receiver has a BNC output for cascading to 4 additional receivers
- Supports 3D, Dolby® TruHD & HDMaster Audio®, EDID & CEC pass thru
- Supports only HD signals: 720p, 1080i and 1080p
- Includes universal TX, RX, 5 VDC/2.5A power supply & IR cables

MODEL: ELEC-HX1RG6-RX

- Additional receiver unit for cascading to another location
- Cascade HDMI signals to 4 additional displays
- Each cascaded single RG6 run must be 10% shorter than last run
- Extends 12-bit/color 1080p HDMI up to 390 ft over a single RG6/U
- Requires single RG6, 18AWG solid copper, dual shielded
- Can be used with RG59DC 20AWG solid copper, dual shielded
- Includes RX, universal 5 VDC/2.5A power supply & IR cable

Audio Electronics

MODEL: ELEC-AC100

- Bi-directional S/PDIF digital audio converter
- Converts coax to Toslink® optical and optical to coax signals
- Outputs both signals simultaneously
- Mini switch selects from Coax and Optical inputs
- LED light illuminates when operational
- Built in amplification feature
- Includes universal 5 VDC/1.0A power supply

MODEL: ELEC-AC200

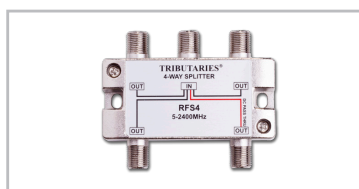

- Bi-directional audio converter
- 3 connections: coaxial, Toslink® & R/L stereo
- Outputs all three signals simultaneously
- Integrated digital to analog & analog to digital convertor
- Supports sampling frequencies from 16KHz-100KHz
- Mini switch selects from coax, optical and L/R inputs
- Supports Dolby® / DTS® only with coaxial and optical input & output
- Built-in amplification feature
- Includes universal 5 VDC/1.0A power supply

MODEL: ELEC-AC300

- Digital Audio Converter with Dolby® Decoding
- 2 connections: Toslink® optical to analog R/L audio
- Uncompressed digital LPCM Dolby® Digital 5.1 audio
- Supports sampling rates of 48kHz/96kHz/48kHz (LPCM)
- S/PDIF bitstream 24-bit of data for left & right channel
- Powered by USB
- Includes USB cable and cube USB power supply

Video Electronics

MODEL: ELEC-RFS4

- Electronic RF 4 way Splitter & combiner
- Swept to 3.0 GHz
- DC pass through on one output

Power Managers

MODEL: PWRC-T10X

- 10 outlet Power Bar; mount on rack, on wall or under counter
- 1800 watts / 15 amps
- 3240 joules of surge suppression using X3 MOV
- 12 volt trigger in and out
- Line power is filtered to lower the noise floor
- Mounting hardware included
- 3 UL® certifications and RoHS compliant
- Lifetime warranty

MODEL: PWRC-T100

- 9 outlet Power Manager; 1800 watts / 15 amps
- 4320 joules of surge suppression using X3 MOV
- Dimmable front panel with circuit breaker
- Over/Under voltage shut down; safe operating voltage: 90V – 130V
- 12 volt trigger in and out
- Two 5 volt USB chargers with USB gooseneck light
- Surge suppressed DSS/Sat and Phone/Lan outlets
- Rack mountable, hardware included
- 5 UL® certifications and RoHS compliant
- 3 year \$25,000 connected equipment warranty

MODEL: PWRC-T200

- 13 outlet Power Manager; 1800 watts / 15amps
- 5400 joules of surge suppression using X3 MOV
- Dimmable front panel with circuit breaker
- Over/Under voltage shut down; safe operating voltage: 90V – 130V
- 12 volt trigger in and out
- Two 5 volt USB chargers with USB gooseneck light
- Surge suppressed DSS/Sat and Phone/Lan outlets
- Rack mountable, hardware included
- 5 UL® certifications and RoHS compliant
- 3 year \$25,000 connected equipment warranty

Power Managers - International

MODEL: PWRC-T101-INT

- 10 IEC outlets Power Manager
- 250 volts / 50Hz / 10 amps / 2300 watts
- 2 Always-on, 4 Switched-on & 4 Delayed-on
- 3672 joules of surge suppression using X3 MOV
- Resettable circuit breaker on the front panel
- 2 front panel retractable lights with 3-way switch for high/low/off
- Rack mountable, hardware included
- CE Approved and RoHS compliant
- IEC power cable not included

MODEL: PWRC-T2-INT

- 2 IEC outlets Power Manager
- 250 volts / 50Hz / 10 amps / 2300 watts
- 1836 joules of surge suppression using X3 MOV
- Line power is filtered to lower the noise floor
- Resettable circuit breaker on the front panel
- Mounting hardware included
- CE approved and RoHS compliant
- IEC power cable not included

Power Manager Accessories

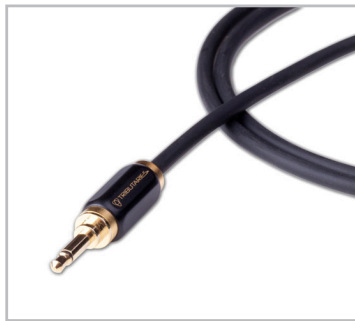

MODEL: PWRA-RET100

- Rack ears for T100 and T10X
- Hardware included

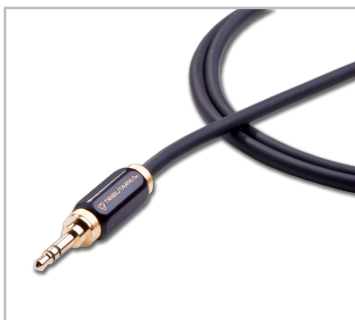

MODEL: PWRA-RET200

- Rack ears for T200
- Hardware included

MODEL: MMC

- Hand made in Orlando, FL
- Mini mono audio cable with three 28AWG stranded OFC conductors
- Suitable for use as a trigger cable for T10X, T100 & T200
- Gold-plated 3.5mm (1/8") mini mono plug connectors
- Highly flexible black PVC jacket
- Available in custom lengths

MODEL: MSC

- Hand made in Orlando, FL
- Mini stereo audio cable with three 28AWG stranded OFC conductors
- Suitable for use as a trigger or control cable
- Suitable for the stereo in/out of computer sound cards
- Gold-plated 3.5mm (1/8") mini stereo plug connectors
- Highly flexible black PVC jacket
- Available in custom lengths

MODEL: PWRA-USBLIGHT

- Flexible USB powered gooseneck light
- Plugs into front and rear of T100 & T200 to illuminate dark racks
- Can also be used with computers and laptops for additional light
- Works with any USB powered outlet
- Small attached magnet makes it easy to store on side of the rack
- Sold in display/each or master pack/10 displays

Power Strips

MODEL: PQRS-T1A

- Single outlet line conditioner with filtering
- 540 joules of surge suppression using X3 MOV
- 1800 watts / 15 amps
- 3 UL® certifications and RoHS compliant
- Lifetime warranty

MODEL: PQRS-T3

- 3 outlet flat panel line conditioner with filtering
- 1080 joules of surge suppression using X3 MOV
- 1800 watts / 15 amps
- 1 rotating outlet
- 1 surge suppressed rotating DSS/Sat outlet
- 2 UL® certifications and RoHS compliant
- Lifetime warranty

MODEL: PQRS-T8

- 8 outlet Power Strip line conditioner with filtering
- 2160 joules of surge suppression using X3 MOV
- 1800 watts / 15 amps
- Six 180 degree rotating outlets
- 1pr surge suppressed DSS/Sat outlets
- 6 UL® certifications and RoHS compliant
- Lifetime warranty
- 3 year \$25,000 connected equipment warranty

MODEL: PQRS-T10

- 1800 watts / 15 amps 10 outlet Power Strip line conditioner
- 2880 joules of surge suppression using X3 MOV
- Five 90 degree rotating outlets
- 1pr surge suppressed DSS/Sat outlets
- 1-in / 2-out surge suppressed Phone/Lan outlets
- 8 UL® certifications and RoHS compliant
- Lifetime warranty
- 3 year \$25,000 connected equipment warranty

Power In-Wall Units

MODEL: PWRI-X

- Dual outlet In-wall Power Extension Kit
- Designed to work with a power manager to protect remote devices
- Kit includes 1 power outlet, 1 power inlet and an AC power cable
- Connect the power outlet to the inlet using 14WG Romex
- Outlet is UL® rated 120V/15A for remote installation
- Inlet is UL® rated 120V/15A for installation near power manager
- The 14 AWG shielded power cable is UL® rated for 15 amps
- Safe hot-pluggable AC with Neutrik® PowerCON connectors
- Kits are available with choice of 6', 9' or 12' power cords
- Lifetime Warranty

MODEL: PWRI-XF

- Dual outlet In-wall Power Extension Kit with filtering
- Can be used alone as a filtered outlet
- Designed to work with a power manager to protect remote devices
- Includes 1 filtered outlet, 1 power inlet and an AC power cable
- Connect the power outlet to the inlet using 14WG Romex
- Dual gang outlet is UL® rated 120V/15A for remote installation
- Inlet is UL® rated 120V/15A for installation near power manager
- The 14 AWG shielded power cable is UL® rated for 15 amps
- Safe hot-pluggable AC power with Neutrik® PowerCON connectors
- Kits are available with choice of 6', 9' or 12' power cables
- 3 UL® certifications and RoHS compliant
- Lifetime Warranty

MODEL: PWRI-PRO

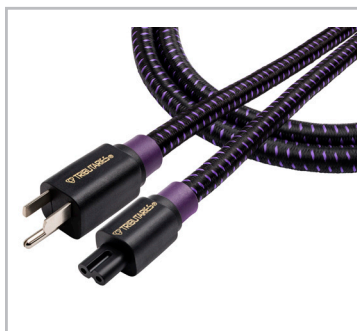

- Dual gang/dual outlet in-wall surge suppressor with filtering
- 1440 joules surge suppression using X3 MOV
- 1800 watts / 15 amps
- Over/Under voltage shut down; safe operating voltage: 90V – 130V
- LED indicator lights for power-on and protection-on conditions
- Fits into most Carlon® and Raco® boxes with 1/2" cover plates
- 3 UL® certifications and RoHS compliant
- Lifetime Warranty

AC Power Cables

MODEL: 6P-IEC

- 3-Pole 15 Amp IEC320 C-13 to Nema 5-15P AC power cables
- Large 14AWG HC-OFC wires don't starve power amps of power
- Multi-gauge geometry design is optimized for signals of 50/60Hz
- Winding techniques & triple shielding ensure low noise transfer
- Dielectric isolates noise from entering the signal path
- Decorative woven jacket over Rugged black PVC jacket
- Available in 3ft, 6ft & 9ft

MODEL: 6P-C7

- 2-Pole 15 Amp C-7 to Nema 5-15P AC power cables
- Large 14AWG HC-OFC wires don't starve power amps of power
- Multi-gauge geometry design is optimized for signals of 50/60Hz
- Winding techniques & triple shielding ensure low noise transfer
- Dielectric isolates noise from entering the signal path
- Decorative woven jacket over Rugged black PVC jacket
- Available in 3ft, 6ft & 9ft

MODEL: PC-EXT

- Short 12 inch male to female AC power extension cord
- 12 amp power cord
- 16AWG / stranded OFHC copper conductors
- Rugged UL® CL 2 black PVC jacket
- Sold in each and bulk /10 each

Promotional Tools

MODEL: TOOL-CLEAN

- Screen cleaner 6.8oz screen cleaner in spray bottle
- Non-alcohol, safe for all types of screens
- Anti-static
- Gel, no-drip formula
- Micro fiber cloth included
- Available in a display, pack/6 displays or master pack/36 displays

MODEL: TOOL-USBDRIVER

- USB 1GB flash drive
- Tributaries Logo keychain

MODEL: TOOL-KNIFE

- Tributaries Logo pocketknife

MODEL: TOOL-DRIVER

- Tributaries Logo mini screwdriver

MODEL: STAND-SPLHOLDER

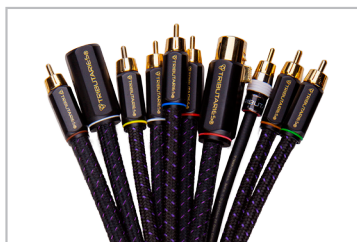

- Slat wall Speaker wire spool holder
- Attractive design with Tributaries Logo

Cable Bouquets

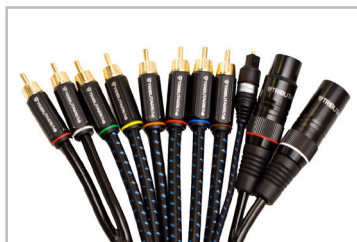

MODEL: BOUQUET-8

- Series 8 cables in bundle

MODEL: BOUQUET-6

- Series 6 cables in bundle

MODEL: BOUQUET-4

- Series 4 cables in bundle

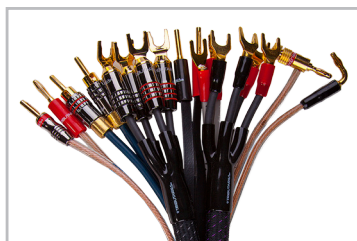

MODEL: BOUQUET-2

- Series 2 cables in bundle

MODEL: BOUQUET-HDMI

- HDMI cables in bundle

MODEL: BOUQUET-SP

- Speaker cables in bundle

Signs

MODEL: SIGN-36X9

- Tributaries logo sign
- Large retail header

MODEL: SIGN-7X5C

- Cables by Tributaries sign
- Table top sign

MODEL: SIGN-7X5P

- Powered by Tributaries sign
- Table top sign

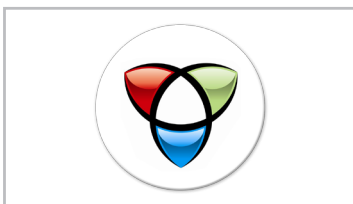

MODEL: SIGN-12X3

- Tributaries logo sticker
- Bumper sticker

MODEL: SIGN-4X1

- Tributaries logo sticker
- Tool box sticker

MODEL: SIGN-LOGOLABEL

- Tributaries logo button sticker
